

Appendix 1: draft LTP Vision, Goals and Objectives

Vision

The Combined Authority's vision for this Local Transport Plan is:

To deliver a world-class transport network for Cambridgeshire and Peterborough that supports sustainable growth and opportunity for all

The vision is intended to capture the aspirations for Cambridgeshire and Peterborough's transport network, reflecting future ambition to provide:

- ◊ 'A world-class transport network' – Cambridgeshire and Peterborough aspire toward a transport system of the highest quality on a global stage, which meets the needs of residents, businesses, and visitors.
- ◊ 'Sustainable growth' – the network will support the delivery of future economic and housing growth across the region that enhances overall quality of life and protects or enhances the environment.
- ◊ 'Opportunity for all' – the network should support access to jobs, services and education for all, irrespective of income, age, ability, location, or access to a car.

Goals

Our goals are intended to outline (at a high level) what wider outcomes we want the transport network in Cambridgeshire and Peterborough to achieve. They are:

- ◊ Economy: Deliver economic growth and opportunity for all our communities.
- ◊ Society: Provide an accessible transport system to ensure everyone can thrive and be healthy.
- ◊ Environment: Protect and enhance our environment and tackle climate change together.

Objectives

The objectives of the Local Transport Plan underpin the delivery of the goals, and form the basis against which schemes, initiatives, and policies will be assessed. They address the challenges and opportunities inherent in accommodating growth sustainably, enhancing freight and tourism connections, and putting people and the environment at the heart of transport design and decision making. The objectives of the Local Transport Plan are described in Table i.

Figure 4.1 Policy themes by objective and transport mode policy themes

Themes

- / Enabling development
- / Planning and designing developments sustainably
- / Expanding labour markets
- / Accessing ports and airports
- / Supporting the local visitor economy
- / Supporting business clusters
- / Freight
- / Building a transport network resilient and adaptive to climate change
- / Maintaining and managing the transport network
- / Safety for all – a safe systems approach
- / Ensuring transport security

Society

Environment

Accessibility

Promote social inclusion through the provision of a sustainable transport network that is affordable and accessible for all

Health & Wellbeing

Provide 'healthy streets' and high-quality public realm that puts people first and promotes active lifestyles

Air Quality

Ensure transport initiatives improve air quality across the region to exceed good practice standards

Environment

Deliver a transport network that protects and enhances our natural, historic and built environments

Climate Change

Reduce emissions to as close to zero as possible to minimise the impact of transport and travel on climate change

- / Transport accessibility for all

- / Transport pricing and affordability

- / Access to education and key services

- / The future of mobility

- / Public rights of way and waterways

- / Promoting and raising awareness of sustainable transport options

- / Supporting and promoting health and wellbeing

- / Improving air quality

- / Protecting our natural environment

- / Enhancing our built environments and protecting our historic environments

- / Reducing the carbon emissions from travel

Travelling by train

The local road network

Delivering a seamless public transport system

Improving public transport in our towns and cities
