Subject: Application for a permit

Hello Aaron,

I would like to confirm details from our telephone conversation this afternoon.

We discussed the application received from Clark-Drain Ltd, Station Rd, Yaxley, Peterborough. I informed you that I have discussed this request with our HPA colleague Dr Kate King, who advised me that unless there is any aspect of the application which particularly concerned you and which had wider public health implications, we would not need to comment. You confirmed that the one aspect of the whole business having PH implications was in connection with air pollution from emissions, and that you had been monitoring emissions for 10 years without cause for concern. The actual permit was requested in connection with surface treating metals and plastics.

We therefore do not wish to comment further.

Best wishes
