If you need help and advice

We have made the application form as straightforward as possible, but please get in touch with us using the details given above if you need any further advice.

For the purposes of Section C of the form, a 'relevant offence' is any conviction for an offence relating to the environment or environmental regulation.

It is recommended that you read the General Guidance Manual on Policy and Procedures for A2 and B Installations and any relevant Process Guidance Note these documents can found at <http://www.defra.gov.uk/industrial-emissions/las-regulations/guidance/>.

Other documents you may need to submit, continuation sheets, submissions and copies

If there are any other documents you need to send to us or need to use continuation sheets with your application please clearly mark which section they refer to.

Huntingdonshire District Council's public register is kept electronically and would appreciate your application to be submitted electronically. If you are sending the application in hardcopy please ensure that the application is scanner friendly and only one copy is required.

B	The installation
Please provide written information about the aspects of your installation listed below. We need this information to determine whether you will operate the installation in a way in which all the environmental requirements of the EPR Regulations are met.	

B1	Why is the application being made? Please tick which statement is correct.	
The installation is new.		✓
The installation currently exists but changes to the installation or to the EP Regulations means that a Part B permit is required.		

B2	Activities	
Please list all activities that are undertaken at your installation including any directly associated activities.		
We are interested in any activities that: <ul style="list-style-type: none"> • Have a technical connection with the main activity plant • Could have an effect on pollution. 		
For an explanation of what is a directly associated activity please go to Annex III of the <u>General Guidance Manual</u> .		
Main activities		Section in the EP Regulations
Coating road stone with tar or bitumen		Schedule 1, Part 2, Chapter 3, Section 3.5

Directly-associated activities	Section in the EP Regulations (if any)
Recovery of non-hazardous waste	Schedule 1, Part 2, Chapter 5, Section 5.4

	Please provide a site plan or plans showing where all the main and directly associated activities are on site as well as any plant, storage areas (product and waste), emission/discharge points and site drainage.	Document Reference: Figure 4

C	The details
----------	--------------------

C1	How will the installation operate?	
	Please supply description of how the installation will operate starting with raw materials and finishing with finished product and wastes leaving the site.	
	See Appendices 1 and 2	Document Reference:

C2	Emissions techniques and monitoring.	
	What pollutants (including odour) and how much are expected to be emitted into the atmosphere? Please say which stage of the process each emission will come from and also whether from a particular chimney, vent or other source (fugitive). Please include emissions during starting and shutting down the plant, and from possible breakdowns or accidents identified by a risk assessment. <i>(Using process flow diagrams may help to simplify this.)</i>	
	See Appendices 1 and 2	Document Reference:
	What techniques will be used to minimise each emission in line with BAT? What monitoring has been undertaken (give results) and what monitoring is proposed?	
	See Appendices 1 and 2	Document Reference:

C3	Environmental management		
What environmental management procedures and policies will you deploy?			
Aggregate Industries has an Integrated Management System (IMS) which is certified by BSI to ISO 14001 (environmental management) as well as ISO 9001 (quality management) and OSHAS 18001 (health and safety management). This system sets out the policies and procedures to be used by all Aggregate Industries' sites to identify and minimise the risk of pollution from site activities associated with normal operations, maintenance activities, incidents and non-conformances.
