Dear Sir

re: EPA 1990 - Part I Authorisation

Further to the authorisation of the Premix Concrete Process at Meadow Lane, St Ives, ref 4/93, we advise below the programme for upgrading to the conditions of authorisation:-

<u>CONDITION</u>	<u>ACTION REQUIRED</u>	<u>IMPLEMENTATION DATE</u>
6 and 8	Bin filling to be controlled to keep material peaks below the level of the partitions	Immediate
7	Radial Conveyor to be fitted with side-boards	Completion by 1 April 1996
9	The auxiliary silo to be fitted with a new reverse airjet filter	Completed May 1993
19	Assessment of methods to suppress dust at the Truckmixer loading point.	Completion by 1 April 1996
22	Test circuit for Silo Alarms	Completion by September 1993
25	Sign for Tanker Unloading Procedures.	Completed April 1993

The BATNEEC principle will be applied to our assessment of action remaining to be taken.

Yours sincerely

R Richards
Area Premix Manager
