

## Environmental permit inspection

Name of permitted activity: Sundown Bedding Products Permit: B02/06  
 Discussed with: Simon Carr Reference: 105527  
 Inspector's Name: Dave Bass Date: 20/08/2015

<b>Reason for visit:</b>	Update on improvements on shavings blow out and update on fire safety improvements.	
<b>Issues discussed:</b>	The alarm on the shavings line appears to be working as no further	
	blow outs have occurred recently. There was another fuel feed fire	
	on the weekend which was put out in according with advice from	
	the fire brigade. There was also a straw fire on bales on a lorry	
	probably caused by the lorry as the burner was not operating. The	
	company has installed CCTV to monitor various areas and further	
	monitors to detect sparks etc. in order to understand where in the	
	process these incidents are occurring. Further work is being	
	undertaken to reduce leakages from pipes and more	
	monitoring/checks are now planned. The company is trying to keep the site and surrounding area clear of detritus.	
<b>Conditions breached:</b>	Not checked.	
<b>Risk assessment revaluated :</b>		<b>NO</b>
