## Comments

New foundry foreman and H&S/environmental consultant since previous visit. They are trying to

get all the records up-to-date. No environmental management system but company do look at

ways of reducing their environmental footprint (e.g. recycling of sand). All staff have been working

there for a considerable time so no formal training records but company do try to train them of the

procedures. The waste skip had recently been cleared so a build-up of sand was noticed but

wasn't escaping off site.
