

Environmental permit inspection

Name of permitted activity: Paxford Composites Permit: B01/02
 Discussed with: Grahame Bloxham Reference: 99257
 Inspector's Name: Dave Bass Date: 17/03/2015

| | | |
|-------------------------------------|--|-----------|
| Reason for visit: | Emission testing and VOC information | |
| | | |
| Issues discussed: | Emission testing was being undertaken during inspection. | |
| | Spraybooth's 1 and 2 are still being utilised as spraybooths and | |
| | were being tested whereas spraybooth 3 is only used for drying. | |
| | Material was being sprayed during testing. VOC recording is now | |
| | very impressive with an accurate record of what is purchased and | |
| | what is used. | |
| | | |
| | | |
| | | |
| Conditions breached: | No conditions breaches were identified or discussed. | |
| | | |
| | | |
| Risk assessment revaluated : | | NO |
