

Mr David Cubitt
Sundown Products Ltd
Station Road
Tilbrook
HUNTINGDON
PE28 3PA

Our Ref ECS/DJB/PPC/10730/035946
Date 8 June 2010

Dear Mr Cubitt

**The Pollution Prevention and Control Act 1999
The Environmental Permitting (England and Wales) Regulations 2010**

Reference: B02/06
Operator: Sundown Products Ltd
Installation: Chipping Plant Station Road Tilbrook Huntingdon PE28 3PA

Following a recent inspection undertaken by this department at the above installation this division considers that at the time of the inspection the conditions of the above permit is being adhered to.

The log book was assessed and the information contained and the actions taken when issues are identified was satisfactory. Please ensure that all staff are continually undertaking their responsibilities under the permit conditions.

It was discussed that care needs to be taken to ensure that ground dust does not escape the confines of the site so please ensure that roadways and other yard areas are kept clean. It is acknowledged that the new link building will be able to contain most of the dust generated from the de-barking activity.

If you have any questions please contact this department at the number below.

Yours sincerely

Dave Bass Environmental Protection Officer
Environmental Health Services Division
