

Environmental permit inspection

Name of permitted activity: Sundown Bedding Products Permit: B02/06

Discussed with: Simon Carr Reference: 103748

Inspector's Name: Dave Bass Date: 19/02/2015

Reason for visit:	Follow up from notification of blow out
Issues discussed:	The failsafe had worked in that it cut off the power to the fan but
	some product was still in the system and managed to blow out the
	stack. This settled mainly on the yard but some left the site on to
	the neighbours farm track. Operator will look into the timing of the
	failsafe to reduce the chances of product escaping.
Conditions breached:	11 however, conditions 17 and 19 were applied as a result of the
	blow out.
Risk assessment revaluated :	NO
