

Environmental permit inspection

Name of permitted activity: St Ives Asphalt Plant Permit: B02/97
 Discussed with: John Wilson Reference: 43615
 Inspector's Name: Dave Bass Date: 23/04/2015

Reason for visit:	Site is reopening following a period of time mothballed	
Issues discussed:	The site was producing asphalt which was being laid in the	
	installation area to (a) repair the surface and (b) ensure the quality	
	was suitable. Major refurbishment has occurred including	
	replacing all the filter bags. Emission test has been undertaken	
	(results not yet returned) and continuous readings are below the	
	emission limit. Site is suitable for a standard rules permit.	
Conditions breached:	N/A	
Risk assessment revaluated :		NO
