22 November 1993

Dear Mr. Allan,

**STATUTORY CONSULTATION - THE ENVIRONMENTAL PROTECTION
(APPLICATIONS, APPEALS AND REGISTERS) REGULATIONS 1991 - STEWARTS AND
LLOYDS PLASTICS PIPES, ST PETERS ROAD, HUNTINGDON, CAMBS.**

Thank you for consulting English Nature over the above application.

We support the Department's aim that emissions resulting from the metal decontamination process will be reduced as far as possible by ensuring that best available measures not entailing excessive cost are implemented.

From the details supplied with the application, and following our telephone conversation on the 19th November, we are of the opinion that the prescribed process is unlikely to have an adverse impact on the nearby Great Stukeley Railway Cutting Site of Special Scientific Interest or any other statutory nature conservation site in the vicinity.

We therefore do not wish to comment further on the application.

Yours sincerely

Colin D. Newlands

C.D. Newlands
Assistant Conservation Officer
Cambridgeshire.

Dear Mr Allan

ENVIRONMENTAL PROTECTION ACT 1990 PART I: AUTHORISATION FOR METAL DECONTAMINATION PROCESS

Thank you for consulting the Health and Safety Executive about the above application for metal decontamination process at St Peter's Road, Huntingdon, Cambs, PE18 7DU submitted by Stuarts and Lloyds Plastic Pipe. Details of the application are noted for our records.

This process involves the use of, or may give rise to, substances likely to be subject to the Control of Substances Hazardous to Health Regulations 1988 (COSHH). Occupational exposure limits for a range of substances have been assigned under COSHH. Details of these standards are given in the current edition of Guidance Note EH40, published annually by HM Stationery Office.

I confirm that HSE is responsible for enforcing health and safety legislation at these premises. In our assessment of this application we have not identified significant elements of conflict or ambiguity with health and safety at work issues. However, if your consideration of the application suggests that these conflicts might develop then please let me know. I would be pleased to discuss these with you before you make a determination.

It is suggested that the following text may be a useful reminder to the applicant and could be included in any covering letter sent with the authorisation: 'This authorisation is issued under Part I of the Environmental Protection Act 1990. The responsibilities you have under legislation for health, safety and welfare in the workplace remain in force'.

When the authorisation is issued I would be grateful if you would forward a copy to me for retention so that it may be consulted at any future visit to the premises.

Yours sincerely

C B TAYLOR
HM Principal Inspector of Factories
